

File Workspace Product Guide

A short, original guide created for the LIPECON public demonstration page.

1	Open the demo page	Use the controlled set of six downloadable sample files.
2	Scan with File Workspace	The extension discovers supported links available in the current tab.
3	Review and organize	Search, filter and select the resources you want to download.

Included formats

PDF, PNG, DOCX, XLSX, PPTX and ZIP. Every file in this demo was produced specifically for LIPECON and contains only fictional, neutral content.

Safe by design

The samples contain no executable code, macros, personal data, credentials or third-party material.
